Profile Summary

Seasoned Professional with 14 years of experience in Team Leadership and Client Relations, currently pivoting into Full-Stack Web Development. Expert in React.js and the MERN stack, with a proven track record of leading high-performing teams of 20+ members. Unique ability to bridge the gap between complex technical solutions and business objectives. Passionate about building scalable web applications and leveraging a decade of problem-solving expertise to deliver high-quality code and seamless user experiences.

Skills

Frontend Development: React.js, Next.js, HTML, CSS, JavaScript, Tailwind CSS, Material-UI, Data Structures & Algorithms (**Basic**)

Tools: Git, Netlify, REST, Vercel

Projects

Medify (Medical Centre Slot Booking Platform) Aug'25

Skills: React.js, React Router, Axios/Fetch API, Swiper, Tailwind CSS, localStorage, Vercel, GitHub.

- Built a responsive React web application enabling users to search and book appointments across 50+ states and thousands of cities, improving search efficiency by 30% using dynamic API-based dropdowns.
- Implemented a calendar-based booking system supporting appointment scheduling up to 7 days in advance, processing bookings for over 100+ medical centers with real-time data.

QKart (E-commerce website) Feb'25

Skills: React, NodeJs, Debouncing, Local Storage, React Hooks, ES6, Material UI, Hashing, Keyword Search, JWT Tokens, Unit Testing

- Spearheaded the implementation of core logic for authentication, shopping cart, and checkout
- Orchestrated the integration of REST API, delivering a substantial 15% reduction in page load times.
- Established secure API endpoints, achieving an outstanding JWT token authentication success rate of 98%.

QTify (Music Website) Jun'25

Skills: ReactJS, TailwindCss, flexbox, Material UI, Swiper, API Integration, Vercel, Figma

- Developed a feature-rich song browsing application using ReactJS, integrating Material UI and Swiper for a seamless user interface and experience.
- Implemented a dynamic and responsive UI with reusable components such as Cards, Carousels, and Buttons, ensuring consistency and efficiency across the

application.

- Created an intuitive genre-based song filtering system using customized Material-UI Tabs and integrated REST APIs for data fetching and error handling.
- Added the login page with authentication check and registration form also added the user login support via Google or other platforms.

QTrip Dynamic (Travel Website) Dec' 24

Skills: HTML, CSS, JavaScript, HTTP, REST, DOM Manipulation, Event Handling, Deployment using Render, cURL, JSON

- Constructed web pages using HTML, CSS, Bootstrap, and JavaScript
- Improved UI/UX of the website with multi-select filters, image carousels, and conditional rendering of page elements
- Utilized local storage to persist user preference at client-side and facilitated reservation form submission using fetch API
